

FOR CRITICAL PROCESS CLEANING

CANI

COMMITMENT TO CONSTANT AND NEVER ENDING IMPROVEMENT

CP-709

ALKALINE DETERGENT

For Use On:

- Cosmetic devices
- Aluminum
- Animal cages
- Mineral deposits
- Plastics
- Pharmaceutical devices
- Medical devices
- Soft metals
- Laboratory glassware
- Stainless steel

DESCRIPTION

CP-709 is an economical concentrated liquid, alkaline cleaning agent formulated for the pharmaceutical, biotechnology, cosmetic, and medical device industries. When used as directed, CP-709 is safe for use on aluminum, galvanized and other soft metals as well as glass, stainless steel, and a wide variety of plastics. The product is designed to be an excellent laboratory animal cage wash product at 0.2% to 1% use dilution. Extremely free rinsing CP-709 provides clean, residuefree, surfaces. Chelants provide excellent hard water tolerance that eliminates mineral deposits

CP-709 is designed to be low foaming at all temperatures for use in immersion, pressure spray, and recirculating spray wash applications and is ideal for rack and cage washing machines. Typical operating concentrations of CP-709 vary from 0.2% to 5% by volume; depending on temperatures, soil loads, and cleaning methods used. Extreme care and protective equipment are required for handling the concentrates and in manual cleaning-see the MSD sheet.

DIRECTIONS

CP-709 is designed for use in immersion, pressure spray, and recirculating spray wash applications and is ideal for rack and cage washing machines. Typical operating concentrations of CP-709 vary from 0.2% by volume, to 5% by volume; depending on temperatures, soil loads, and cleaning methods used.
