FRESH BREEZE TB

- For Use On:**
- Animal Infection Control
 - R & D Facilities
 - Drug Facilities
 - Stainless Steel
 - Walls
 - Floors
 - Tables
 - Sinks
 - Shower Stalls

DESCRIPTION

Fresh Breeze - TB is designed specifically as a general non-acid cleaner and disinfectant for use in homes, hospitals, nursing homes, schools and hotels. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces such as walls, sink tops, tables, chairs, telephones, glazed ceramic tile in bathrooms, shower stalls, and bathtubs, cabinets and bed springs. May be used in the kitchen on counters, sinks, appliances, and stove tops. Do not use on eating utensils, plates or glasses. In addition, this product deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms. When used as directed, this product exhibits effective disinfectant activity against Mycobacterium tuberculosis (BCG) at 20°C, Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa, Canine parvo & E. Coli 0157:H7, and meets the requirements for hospital use. When used on environmental, inanimate, non-porous surfaces, it is virucidal activity against HIV-1 (associated with AIDS). Also effective as a Mildewstat and is fungicidal against the pathogenic fungi, Trichophyton mentagrophytes (Athlete's Foot Fungus).

DIRECTIONS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Disinfection, Deodorizing, and Cleaning - Remove gross filth or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and remain wet for 10 minutes. No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. The product will not leave grit or soap scum.

One-step cleaning and disinfection of toilet bowls and urinals: Remove water from bowl by forcing water over trap with a swab mop applicator. Press swab mop against side of the bowl to remove excess water from applicator. Apply 1 to 2 ounces of this product evenly, allowing sufficient time for product to cover entire surface of bowl for maximum cleaning. Swab bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand 10 minutes and flush.

Mildewstat - To control mold and mildew on pre-cleaned, hard, non-porous surfaces spray surface to be treated making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth appears.

PRODUCT SPECIFICATIONS
